

Introduction to Indego® Personal

What is Indego Personal?

Indego Personal is a powered lower limb orthosis, also known as a powered exoskeleton, which enables people with mobility impairments the opportunity to walk independently. Power is provided by sophisticated motors in the knee and hip joints, and combined with advanced sensors and control strategies, the device allows gait impaired individuals to stand and walk again.

Who is Indego Personal for?

Indego can be used at home and in the community as a mobility assistive device for gait impaired individuals.* Indego offers people with impaired mobility a new level of independence.

What makes Indego unique?

Indego offers an unmatched set of features intended to facilitate usability and independent operation:

Modular Design

Indego can be donned and doffed quickly because of its five-component design, self-aligning connections, and single hand adjustment system.

Lightweight

At just 26 lb (12 kg), Indego is light, easy to handle, allows for rapid set-up, and easy transportation. It has no backpack or upper body components and can be worn while seated in a standard wheelchair.

Ease of Use

The user controls Indego by changing his/her posture. Lean forward to stand and walk, maintain an upright stance to stop, and lean backward to sit. Indego includes vibratory feedback, LED indicators, and wireless software and control interface.

Indego App

Indego's iOS app allows control over gait parameters such as stride length, step frequency, step height, and records walking data so users can track their progress.

*For more details pertaining to indications for use, refer to the Technical Data table on the following page.

About Parker Hannifin Corporation

With annual sales of approximately \$13 billion in fiscal year 2015, Parker Hannifin is the world's leading diversified manufacturer of motion and control technologies and systems, providing precision-engineered solutions for a wide variety of mobile, industrial and aerospace markets. The company has operations in 50 countries around the world. Parker has increased its annual dividends paid to shareholders for 59 consecutive fiscal years, among the top five longest-running dividend-increase records in the S&P 500 index.
